

## The Alphabet (A1-)

### Teacher's notes

#### **Task 2.**

Cut out and give one set of letters to each student (see next page). The teacher calls out the letters of the alphabet and the students lift up the appropriate cards.

#### **Task 3.**

The teacher spells the words from task 1 and/or other frequent words and students write them without looking at the previous pages. Then, students practice spelling their names and other words to each other.
