

Prepositions of place (A1)

Teacher's notes

Task 7.

Each student has a set of cards showing images of household objects (see next page).

The teacher provides instructions for how to arrange the objects (*the phone is on the wardrobe, the stove is next to the shower*).

The teacher can then ask the students where a particular item is.

The game can be repeated with different instructions for arranging the cards.

The game can also be played among students in pairs/groups.
